

Build Your Own Paper-Bag House

You're the Architect You're the Engineer!

**WHAT KIND OF ROOF WOULD YOU LIKE? HOW
MANY WINDOWS? DOES YOUR HOUSE NEED A
DOOR? YOU DECIDE!**

Select a paper bag and fold it together at the top. Keep it together with some glue

Pick some fun colored shapes. Are they windows? What other structures could they be?

Once you've picked your shapes, glue them onto your bag house. Where should they go?
